| | | Q1 Summary | | | | |
|----------------------------|-----|--|--|---|--|---|
| | | Ballots on industrial action should need a minimum number of Union members voting in them before strike action can be called | Strikes are a legitimate way for Unions to protect the pay and conditions of their members | Strikes are a legitimate way for Unions to protest against the general direction of Government policy | The Government should legislate so that strikes are not allowed in certain public services | Strike action is a sign of just how little power Unions generally have in Britain today |
