Table 24

Q.4 In the last 10 years successive UK governments have introduced new policies to reduce smoking rates, including bans on smoking in public places, pictorial health warnings, a ban on cigarette vending machines, a ban on the display of tobacco in shops, and - from May 2017 - standardised (or "plain") packaging of tobacco products. If at all, do you think government policies to reduce smoking rates have gone...?

Table 8
Q8. In the last 10 years the Scottish and Westminster governments have introduced new policies to reduce smoking rates, including bans on smoking in public places, a ban on cigarette vending machines, a ban on the display of tobacco in shops, and - from May 2016 - standardised (or 'plain') packaging of tobacco products. If at all, do you think government policies to reduce smoking rates have gone ... ?
