Q.7 I am going to read out two different views about the economy. Please listen to both views and then tell me which one you most agree with?

- Britain has a severe debt crisis that threatens international confidence in our economy. Every year that the country borrows money it costs taxpayers billions in interest payments. The longer we go on borrowing, the more tax we pay to fund it and the less public services we can afford. So, even though this means bigger spending cuts over the next four years we must get back to balance before the next election.
- Britain's debt problem is serious and must be dealt with, but it would damage the economy and public services if cuts were made too quickly. So, even though there is a cost to borrowing more money for longer, we should halve the government deficit by the time of the next election, rather than trying to deal with the problem completely by then

Q.8 We're interested in getting a sense of how highly you rate various politicians. Please rate the following on a scale of 0-100, where 0 means you have a very negative view of them and 100 means you have a very positive view of them. If you have never really heard of one of them, or don't know enough to have a view, then please say so?
