Q.3 To what extent do you agree or disagree with the following statements?
Summary

Base: All respondents

		The UK Government has spent too much money on its response to the pandemic	The UK Government has wasted money in the response to the pandemic and is not providing the UK taxpayer with value for money	On balance, the UK Government has got the balance right between spending money on its response to the pandemic, supporting businesses and individuals, and making sure the UK taxpayer got VFM	The UK Government has not spent enough money in its response to the pandemic, meaning the NHS has lacked resources unnecessarily and businesses have lacked the financial support they have needed	The UK's Test & Trace system has provided the UK taxpayer with value for money	The UK was the first country in the world to clinically approve a COVID-19 vaccine because the UK is better than every other country around the world	I trust the NHS to effectively deliver the COVID-19 vaccination process	I trust the UK Government to deliver the COVID-19 vaccination process
