Table 47

Q1(June 2020). Social distancing means that fewer people are allowed in shops at the same time. This has meant people often have to queue when they go shopping. Some people have argued that shops should be allowed to open longer on Sundays, i.e. lift Sunday trading laws, as this might spread out shoppers over time and cut queues. Which of the following statements best aligns with your view?

Base: All respondents (Excluding Scotland)
